BinaxNOW is an antigen test that detects the presence of the SARS-CoV-2, which is the virus that causes a COVID-19 infection, in about fifteen (15) minutes. The specimen for the test is collected via nasal swab. This test is completely voluntary and will not ever be administered unless this form is signed. A positive result of this test will be immediately reported to the Local Public Health Agency (LPHS) so that it can begin contact tracing and instituting appropriate disease control measures. The LPHA solely manages these efforts. Additionally, all test results will be shared with the Department of Health and Senior Services (DHSS) pursuant to state regulation. If symptoms consistent with an infection of COVID-19 develop or persist after a negative test result, consult with a health care provider or the appropriate LPHA to determine the best course of action. Except as required by law, test results and testing information will be kept confidential by COMC, LPHA and DHSS. Completing and signing this form serves as consent for the test to be performed on the named individual and is also an acknowledgment of the above statements.

Consent to Obtain External Prescription History

By authorizing Central Ozarks Medical Centers (COMC), and its affiliated providers, you allow us to view your external prescription history via our electronic medical records system (eClinical Works). This will allow your provider to have information regarding medications you're taking in order to minimize adverse drug reactions.

By accepting this consent you understand that prescription history from multiple unaffiliated medical providers, insurance companies, and pharmacies may be viewed by my provider and authorized staff, and it may include prescriptions back in time for several years.

This consent will remain in effect until the day you revoke your consent. You may revoke this consent at any time in writing but if you do, it will not have an effect on your treatment.

By signing this consent form you are agreeing that COMC, and its affiliated providers can request and use your prescription medication history from other healthcare providers, insurance companies, and pharmacies.
